University of Denver - 2018

High School Diploma

Dakota Ridge High School - 2015

Skills

React js
Vue js
Agile
Django
Docker

Relevant Experience

Lead Developer

Carbon Studio Limited | 2017 - Present

Carbon Limited was a venture between a group of like minded developers and myself. A web development firm tailored towards smaller clientele. As lead developer I was responsible for outbound sales as well as architecting and overseeing various projects.

- Building ui and ux / architect SQL databases
- Managed projects with up to 10 developers using Agile methods
- Managed some cloud infrastructure systems

IT Consultant

Denver IT Consultants | 2016 - 2017

I was responsible for traveling to the clients site: diagnosing and repairing various computer, network, and system issues. Our clientele ranged in size from small to large businesses.

- Communicate technical issues to the client while on site
- Network and cloud infrastructure management
- Working among teams to service larger clients

Advertising / Executive Assistant

RE/MAX Cherry Creek | 2015 - 2016

At Re/Max I was working under a top producing agent. I helped with various admin tasks day to day. I was also responsible for generating ads, designs, and marketing strategies for helping homes sell faster.

- Handle client communications and expectations during process.
- Design and Implement digital and print advertising campaigns for properties
- Contract and schedule management
